Route-description airport Lisbon to Vila Nova de Milfontes

Leave the airport, direction down, towards the roundabout. Go straight over the roundabout, 2/4. You will enter a junction with traffic lights, select the **left** road. You will drive on the broad road ('avenida') of the A2, direction Sul/Algarve. Follow this road (stay on the left side) and take the exit direction **Ponte Vasco da Gama**, which is a beautiful bridge connection between Lisbon and the continent, over the river Tagus (Rio Tejo). When you have left the bridge always follow direction Sul/Algarve (= A2), which is mostly the road at the left. Take a ticket at the toll Pinhal Novo (portagem).

After driving about 100 km take the exit Sines/Grândola. You must pay the toll after leaving the highway. Follow direction Sines, which is about 40 km. Before Sines you will see at your right hand an exit **Sul/ Algarve**. Follow this one. At the roundabout take direction Cercal/ Vila Nova de Milfontes/ Porto Covo. Same on the next roundabout. You are now on the main road between Sines and Cercal (N 120-1). Follow this road until you enter Cercal (you will pass the little village Sonega). Do not take the road before that leads to Porto Covo or even Vila Nova de Milfontes, this is a more complicated road and a very bad one.

You will enter Cercal, follow the road until you arrive at the roundabout, this is a nice square with little bars and restaurants. Take the first road to the right, direction Vila Nova de Milfontes. Follow the road, it has some sharp curves, until you enter the village Brunheiras. At the junction continue straight and after 2 or 3 km you will see a Galp tankstation at your right hand

Continue this road until you see the sign for Milfontes and there turn to the right. Follow the main road of Vila Nova de Milfontes until you are not allowed anymore to drive further (at this point you'll see a Escola Primária (school) at your right hand. Turn right, follow the road until the roundabout and then continue straight on. After a little while the road turns sharp to the left towards the sea. At the end of this street turn left again. Soon you will see at your left hand Hotel Social, and right after this point (about 50 m) there is a little street at your left hand. You may not enter this street with your car, but on the corner of this street you'll see the Milmontes' Office. Park the car in front of the castle, which is only 50 m further. From there you walk back down again.

Route-description Faro – Vila Nova de Milfontes

After leaving the airport follow the signs **A2 – Lisboa**. It will lead you to the highway. After for about one hour drive on the highway (part of it is toll) you take the exit '**Ourique**'. Stay for a while on this road (do not take another exit Ourique, it will lead you into the town), follow for a little while again Faro/Algarve and then you'll see the sign **N123-Odemira**, where you take the exit to the right. This is a beautiful inland road where you can see a lot of storks in springtime.

After half an hour drive you will see a junction, follow the road straight ahead, direction **Cercal**. After arriving into Cercal take the roundabout for 2/4 direction **Vila Nova de Milfontes**. This way is always straight ahead. After the little village Brunheiras, where you come across, you'll see a Galp tankstation on your right, after the second traffic light. Continue the way until you see the sign for Milfontes and there turn to the right. Follow the main road of Vila Nova de Milfontes until you are not allowed anymore to drive further (at this point you'll see a Escola Primária (school) at your right hand. Turn right, follow the road until the roundabout and then continue straight on. After a little while the road turns sharp to the left towards the sea. At the end of this street turn left again. Soon you will see at your left hand Hotel Social, and right after this point (about 50 m) there is a little street at your left hand. You may not enter this street with your car, but on the corner of this street you'll see the **Milmontes' Office**. Park the car in front of the castle, which is only 50 m further. From there you walk back down again.
